SUMMARY

Detail-oriented Information Technology student seeking an OJT / Web Developer Intern position. Proficient in frontend and backend web development with hands-on experience building local management systems using PHP, MySQL, and modern UI frameworks. Eager to apply academic knowledge to real-world projects and contribute to team goals.

EXPERIENCE

Current Internship | 2026 — 2027

Data Center College of the Philippines (Bangued) — Bangued, Abra

• Assisted in customizing internal system dashboards and user interface elements.

• Gained hands-on experience working with web application logic, local server testing environments (XAMPP/Apache), and database connectivity.

• Collaborated with team members to test and troubleshoot web-based functionalities.

Digital Content Creator & Audio Producer | 2026

• Audio Production: Composed and produced original electronic music using FL Studio, demonstrating proficiency in digital audio workstations (DAWs), sound design, and arrangement.

• Video Editing: Edited and processed short-form videos, handling basic color correction, cutting, pacing, and audio syncing to create engaging multimedia content.

• Technical Software Application: Utilized software tools efficiently to manage file rendering, audio-video compression, and high-quality digital output formats.

PROJECTS

ABRAKEEPS — A Digital Marketplace for Abra's Traditional Delicacies and Crafts

Designed and developed a web-based digital marketplace system to promote local heritage products, implementing robust frontend layouts and a structured database backend.
